Cover Letter

Dear Sir / Madam,

I am very passionate about Film and Production, I'm therefore honoured and privileged to seek this great opportunity of working with your organisation as we work towards meeting your requirements and more.

My goal is not to meet your expectations, but to exceed them. Audiences have seen many stories, so failure to show them something new, make them feel something new, or think of something in a new way, demonstrates a disrespect of their time and investment.

I do not regard Filming and Production as an entertainment or another type of job but as a medicine of information. When I do a story for the organisation, I don't want you to stop at how creative it looks, but more so I want you to find it so impact full enough to cause change.

Therefore, my aim is to do more than the norms call for. It is to passionately create remarkable videos and shoot incredible photographs that will provoke me beyond the common place and create in me a new thirst and fresh desire for your work and purpose.

Don't let your organization's production history be forgotten. Do not let your stories land in the hands of less passionate creatives because it will lose its soul and essence.

I am so grateful for your time and the interest you have shown in my application by accepting to read it up to the very end and I hope that you will find it appealing to your mission.

I am also available to answer any questions you may have and discuss further as I look forward to working with you.

Regards,

Jjumba Stephen
